

Installation Manual

for flip-up office desk power

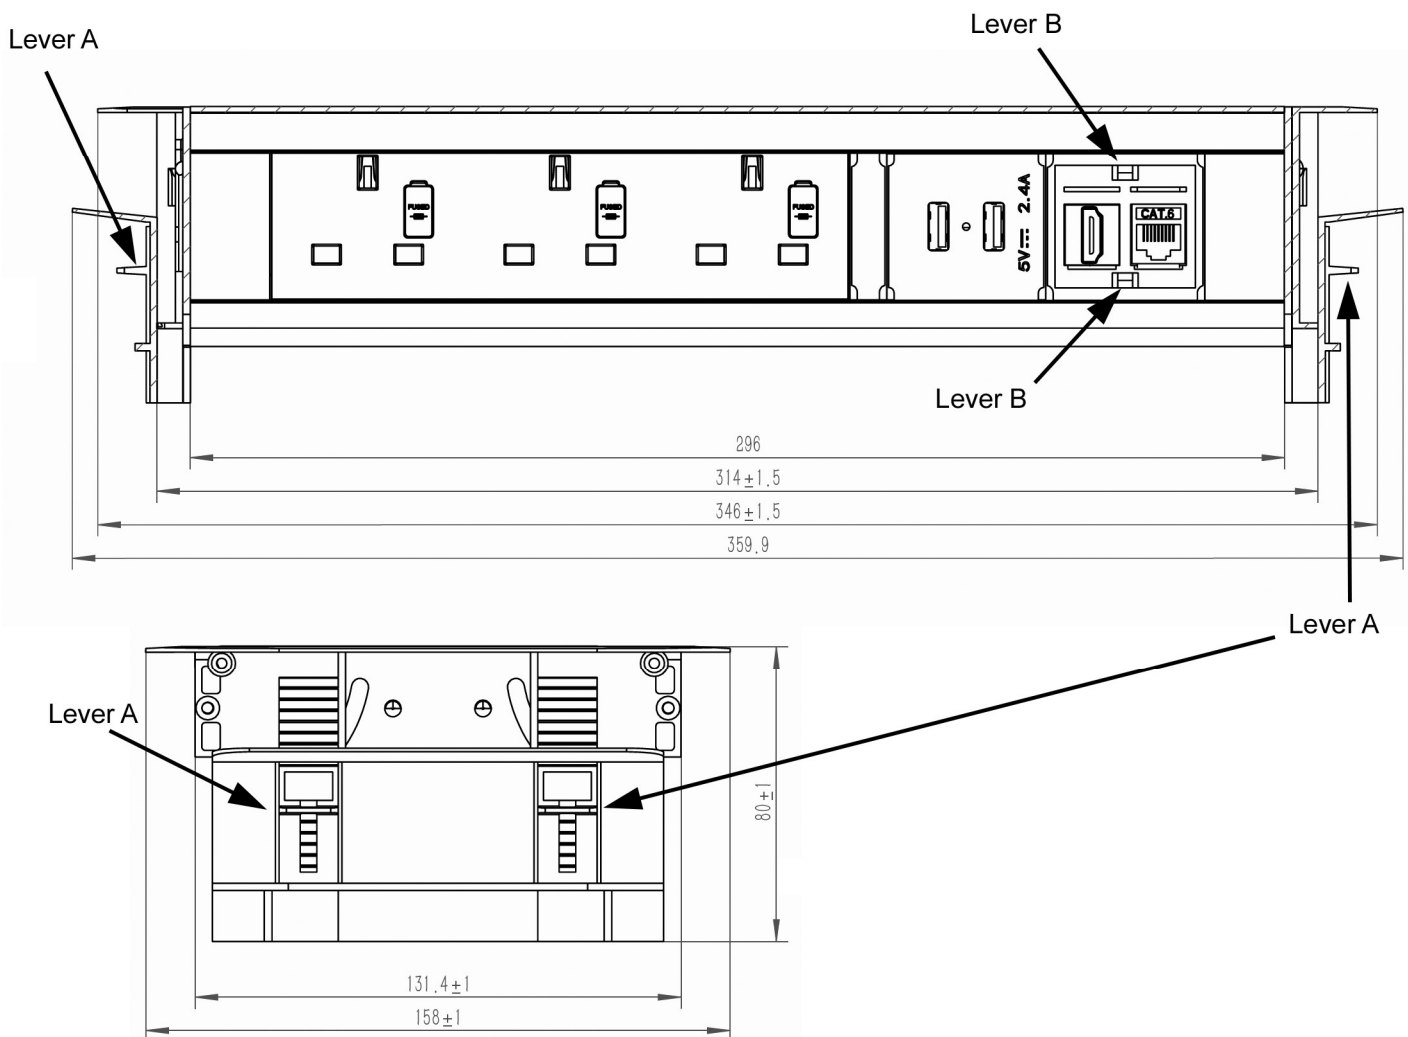

Models: DPF44S3U2HL, DPF44S4U2

Safety Warning

1. Do not use this product for any purpose other than which it was designed for.
2. All electrical cables should be fitted by a qualified or competent person.

Fitting Instructions

1. Pre-cut an aperture measuring 320x136mm in the desktop;
2. Remove the fixing brackets from the unit by push the levers A outward and downward;
3. Fit the unit in the pre-cut aperture;
4. Refit the fixing brackets from the underside of the desktop, pushing them up as far as they go;
5. Connect to the mains power with the included cable or link to other power modules;
6. Optional: connect HDMI/RJ45 cables, it might be easier to pull the module out by squeeze the levers B of that module and pull it out.

Maintenance

1. Cleaning & Maintenance

Dry cloth, no abrasives or solvents to be used on the module surface.

2. Handling & Storage

Do not drop or expose to moisture.
